

Merritt College Counseling Department

Articulation Notes
November 18, 2002

1. **SDSU Impacted Majors** As admission to SDSU becomes more and more difficult, they've created a page on their web site to keep the public informed about the status of impacted majors. I've put a link to this page on the Counselor Web Site. FYI, it's <http://arweb.sdsu.edu/es/admissions/impaction.html>
2. **UCLA Restricts Winter Transfer Admissions** In a recent message from UCLA's director of admissions, we were informed about a recently approved decision that will close winter transfer admissions to all majors except Engineering, effective winter 2004. Fall transfer admissions will continue to be open to all majors and programs in the College of Letters & Science, School of Arts & Architecture, Theater, Film, & Television, Nursing, and Engineering.
3. **Merritt 02-03 UC TCA Published on ASSIST** Just received word that ASSIST has published our recently approved UC TCA for 2002-2003. Also, ASSIST informs us they have just completed installation of new servers and software that have significantly improved response time.
4. **New CAN Qualified Courses** We have recently had a number of new courses approved for CAN identifiers. A revised list of CAN Qualified courses, along with a list of additions and deletions, will be distributed shortly.
